The Primary School of Rudolf Koblíček

The Primary School Rudolfa Koblíce in Kadaň at the Pionýrů Street was ceremonially opened on 11th January in 1959. The school is situated in peaceful and quiet area surrounded by the greenery of Smetana's Park and St. Hill.

It is two floored brick building with attic area and the basement. The left wing of the building is constituted by the gym with study and sanitary facility. The kitchen, school canteen and the public nursery can be found in the right wing of the building.

There are pupil's cloak-rooms, work-room and a school shop at the basement. There can be found classrooms, special schoolrooms and studies in the first and second floor, too. A part of the school area is

also our newly reconstructed multifunctional playground made of polytan (plastical surface), school garden and a children corner that is usually used by public nursery. There is a sandpit and playpit, too.

One of the school priorities are teaching English language, scientific streams and IT and communication development. The school facilities come out of it. There is a computer laboratory available, including 16 working stations and there are also computers in our public nursery, staff room and all classrooms. It is obvious to have an access to the internet from all computers, too. That is thanks to our school LAN (Local Area Network) via server. We have got the pleasure to work on seventeen interactive boards brand SmartBoard at the moment, too. Our school gets engaged in many projects such as ecological or all-European. We are proud members of Comenius project

called: „My little homeland – culture, traditions and tourist attractions of the region“. We have been participating with three foreign schools (Norway, Turkey and Austria) for two years already.

The Primary School in Kadaň at the Pionýrů Street number 1102, in Chomutov region is a complete school with nine gradual year-classes. There are usually couple of simultaneous classrooms at both grades. There are 398 pupils attending our school at the moment. From the 39 employees are 28 educationalists and 11 managing staff.
